Support for carers

Caring for older people is such an important role and can be very rewarding. But being a carer can also be challenging and exhausting.

It's important for carers to look after their own health and wellbeing. There are times when you need to rest and recharge to be able to keep going.

There are also times when commitments or an illness mean that you need some help and support to keep providing care, and to be able to keep your loved one living at home where they are most comfortable.

We offer the comfort of knowing your loved one is getting attentive care in a home-like setting.

Attentive and friendly overnight respite care

Baptcare Orana provides overnight respite care in purpose-built cottage-style accommodation. You or your loved one can enjoy a comfortable stay in a friendly and supportive environment:

- Emergency care or planned care available
- Stays are generally up to seven nights, but longer stays up to 21 days can be arranged
- Care from qualified and experienced staff including assessments and care planning to understand individual's needs
- Single room accommodation – six rooms, some with ensuites'
- One shared room with ensuite that is suitable for couples/friends
- Tasty, healthy meals cooked on site
- Free access to our Social Centre which operates Monday to Friday.

Orana is here to support you

We provide care and support for people 65 years and over, people under 65 living with a disability, and carers looking after loved ones in the home. Our range of programs help you or your loved one to stay well and enjoy time with others, while maintaining your independence living at home.
